Our Share of the Public Property After Confederation.

Under the terms of Confederation, as passed by the Council, Canada will become responsible for our debts and pecuniary liabilities, and for the support of various services that, under the operation of the Act of Union, will become federal. In return, however, Canada will get a portion of our present revenue, such as Customs, Excise, and Postage. But that is not all that she will get. It is distinctly stated in the Terms of Confederation that British Columbia will transfer to her a belt of country not more than 40 miles wide on the line of the proposed railway. This then may be estimated in round numbers at 20,000 square miles, or 12,800,000 acres. That then is the price that this Colony will pay for the railway, except that we shall get $100,000 per year for ever, and the use of the railway, too. After the railway land shall have been transferred, we shall have the snug little estate of about 200,000 square miles, or 128,000,000 acres left. This, however, has to be still further reduced by transferring to Canada all the Indian reserves that now exist, and all the land that may hereafter be required for Indian reservations. If it should happen that Canada will ask more Indian reservations than we might be disposed to give, the Imperial Government will be sole arbitrator. Our real estate will be subject to still further reduction. Race Rock and Fisguard Lighthouses will become the property of the Federal Government. The Custom House and Post Office in Victoria, New Westminster and other places, will cease to be ours. Besides which all the other public buildings and all lands set apart for general public purposes of the Colony, will belong to Canada, except such as the latter may appropriate for the use of the local government of the Colony. There is a bare possibility that Canada may at any time give us notice to quit one of our present public buildings, though it is not likely. Not content with *terra firma*, all our harbors will belong to the Dominion. When unsold water lots will be required, or if ever Victoria city should ask for certain harbor privileges, application will have to be made to Ottawa. The harbors are about the last of our real estate that we will have to give up at Union,—except, possibly, some of our highways, in case any such highways can be construed to mean military roads. But it is somewhat doubtful whether any of our roads can come under the latter head. If the Dominion could call the Yale-Cariboo road a military highway, and keep it in good repair for public use, we presume that very little objection would be made by the local Government. But, we fear, there will be no such good luck. There is still another portion of our real estate that may be taken from time to time, whenever required, that is, any public land that may be necessary for fortifications or defence. We certainly hope that the Minister of War of the Dominion, Sir Geo. Cartier, will take up some for fortifications at once, provided that their construction shall be at once commenced. The personal property of the Colony, we shall have to divide up, too. The Dominion will get all the cash in the public coffers, or at our credit at the Bank at the date of Union; and if we hold any stocks or securities for money, it will get them too. The steamer Sir James Douglas, the lightship on the Fraser Sand-Heads, the Dredger and Punts in Victoria harbor, and all the Custom House boats, will go with the above personal property. So the sooner provision be made for a first class steamer to run to Nanaimo-Comox, the better; for next July or September the Colony will not own a tree-nail in any vessel afloat; and our new partner may hand over the Douglas to chase smugglers, supply lighthouses, lay down buoys, go on exploring expeditions, or carry officials around on pleasure excursions. There is one other class of property that we shall have to transfer, and that we shall do cheerfully, for it has always cost more than it has ever been worth, that is, the Military Clothing and Munitions of War, under the immediate charge and control of the Volunteers of New Westminster and Victoria. Finally, the Dominion will get the telegraph line in British Columbia, on condition of keeping it in working order. Now, all that we have enumerated Canada will get at the time of Union; what she will not obtain, as a matter of course, will belong to the Colony.

NEW YORK.—The snow storm ceased this morning, January 27. Nearly two feet of snow has fallen. Travel is greatly impeded in all directions, and in some cases entirely suspended. All the railroad trains since the beginning of the storm have been greatly delayed. The driving snow in some cases so choked the fires and smoke-stacks of the locomotives as to seriously embarrass progress. The storm seems to have extended over the greater portion of the country east of the Rocky Mountains, though it does not appear to have extended very far to the south.

A REQUISITE SUPPLIED.—To avoid the necessity, which has heretofore existed, of sending to San Francisco to have finished book-binding, Robert Williams has, by steady application and practice in the largest establishments in California, perfected himself in the art of book-binding and ruling, both plain and ornamental, and is supplied with all the necessary material and machinery. In Chemainus District, V. I., B. C., on the 22nd inst, the wife of Mr. T. G. Askew of a daughter.

MR. MURPHY AND THE FENIANS.—A Washington despatch states that Mr. Thornton, the British Minister, has semi-officially requested Mr. Secretary Fish to inform him whether Collector Murphy is authorized to tender a welcome in the name of the United States Government to the Fenians lately arrived in New York, who, though they had experienced the Queen's clemency, could not be recognized other than as foes to the British Government. The attempted reception of the exiles on their arrival in New York city, on Wednesday, 18th January, and the circumstances attending the affair, have revived in in that city rumors of the probable speedy retirement of Collector Murphy.

PROPERTY FOR SALE.—See the advertisement of Capt. Wm. Irving, offering for sale all his property in British Columbia, consisting of a splendid dwelling house in the city of New Westminster; the Fraser river steamers, Reliance and Onward; and a controlling interest in the Albion Foundry, in this city. The steamers are in splendid condition, and will be sold at a very reasonable price.

FIREMEN'S BALL.—Last evening, the Firemen's Ball took place at the Alhambra Hall, and was very largely attended. Dancing commenced at 9 o'clock, and was kept up until an early hour this morning, when every person retired to their homes, apparently well satisfied with their evening's enjoyment. A splendid supper was supplied by Mrs. R. J. McDonnell of the Sunnyside restaurant.

A REAL LIVE ROAD STEAMER.—A mechanical curiosity, in the shape of a steam buggy, is on exhibition in New York. The inventor claims that it can be driven, with two persons in it, 150 miles a day, upon common roads. It is light and strong, and can be managed better than any horse, and can be driven faster than any person dare to ride. The owner says he will match it against any trotting horse in the world.

FROM BARCLAY SOUND.—The schooner Surprise arrived on Tuesday evening, from Barclay Sound. She reports having put into Neah Bay in a gale of wind, and found the steamer Varuna at anchor there. Nothing was seen of the Revenue Cutter Lincoln, which left here last week, for a cruise to the mouth of the straits.

THE DEPARTMENT HOSE.—Satisfactory arrangements have been made by the Finance Committee of the City Council for the payment of the hose for the Victoria Fire Department, which arrived on the Prince of Wales from England, and it will be immediately handed over.

THE Canada Central Pacific Railroad Company, are to apply to Parliament, at its next session, for a charter. This company intends to construct a line from Fort Garry to British Columbia, and a branch to Pembina, or somewhere in its vicinity.—*Globe, Jan, 30.*

ROAD STEAMERS.—The wheels and part of the machinery of the road steamers were discharged from the Prince of Wales yesterday. A large number of people visited the wharf during the day, to look at the large wheels, which weigh about three tons each.

REMANDED.—Ah Sam was brought up on remand before the Police Court, yesterday morning, charged with cutting Ah Lon with a knife. A cross-charge was entered against Ah Lon for cutting Ah Sam. The prisoner was further remanded until Friday.

FOR NANAIMO.—The steamer California, Capt. Hayes, left, at 7 o'clock, yesterday morning, for Nanaimo, to load with coal. She will return here on Friday, and proceed to Portland on or about Saturday morning.

FOR BURRARD INLET.—The steamer Grappler, Capt. Devereux, left at noon yesterday for Burrard Inlet, with the ship Elmstone in tow, bound to Moody & Co.'s mill, to load with lumber for Callao.

WASHINGTON'S BIRTHDAY.—Yesterday being Ash Wednesday and Washington's birthday, nearly all the stores in the city were closed in the afternoon.

MR. GLADSTONE.—The *World's* special says: Mr. Gladstone resigns his seat for Greenwich and Mr. Grosvenor retires from Westminster to make way for Mr. Gladstone.

Chancellor Gifford has issued an interlocutory judgment su p n i g the sale Great in Britain of the American edition of Tennyson's poems.

LENT.—Our local cotemporary should try something on the opposite tack for it evident ly knows nothing of "Lent." Vide *Colonist* yesterday.

FROM CHEMAINUS.—The steamer Emily Harris, arrived yesterday afternoon, from Chemainus, with a full cargo of cord wood for Frain's depot.

THE ISABEL.—This steamer will leave for the Sound at 5 o'clock on Friday morning, instead of at her usual sailing hour.

ASH WEDNESDAY.—Yesterday being Ash Wednesday, divine service was held in the Episcopalian and Catholic Churches.

MR. CHILDERS is paralyzed in the lower half of his body.

☞ Memory presides over the past. Fell's Coffee over the present. SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DISPATCHES.

NEVADA.

HAMILTON, Feb 20—A woman known as Mrs Stele, shot a man named Isaac Cutinery, at the 21 mile station, on Wednesday last. She was seated in the stage going to Pioche, when he objected to her going and tried to push her off. She drew a six-shooter and fired twice, both shots taking effect and inflicting, it is thought, fatal injuries.

CALIFORNIA.

SAN FRANCISCO, Feb 19—A prominent Western physician is now here, and will sail for Santa Barbara immediately, to examine the old Escondito Springs, five miles from that place, to test their qualities with a view to the erection of an extensive hotel there by Chicago capitalists making it a first-class resort for invalids. The reports of the effect of the climate of Southern California, sent back by invalids from the East, are so satisfactory that it is believed a great number will come here next season.

The friends of the Hon. J. J. O'Mally, member of the Assembly two years ago, and father of the eight hour law, propose to run him for Congress in this District. O'Mally has kept entirely out of politics lately, working hard in the employment of the San Francisco Gas Company, and would make a strong run.

A circumstance came to the knowledge of the Police last night, which led to the discovery that the family of a deceased Judge, whose memory is highly esteemed by the people of this city, were in absolute want of the common necessaries of life.

EASTERN STATES.

NEW YORK, Feb 18—The French Relief Committee earnestly request editors of journals to give the following appeal circulation:

"Mr Charles Larrier, Treasurer of the fund for the relief of the suffering population of France, represents the subscriptions as follows:—Total by the Chamber of Commerce, $67,138; Produce Exchange, $15,000; total, $82,138. Eugene S. Rollins, Treasurer of the Gold Exchange, acknowledges the receipt of $2,276.

"Appeals were made yesterday, to the Clergy of the country. It is proposed that a simultaneous collection be taken up the second Sunday in March, in all the churches in the country, for the relief of the starving in France. It is not sympathy with France, but with her distress, that animates this appeal. Eight millions of people are suffering in winter for the want of food and clothing.

"The neighboring nations—England, Belgium and Switzerland—are making a general effort to relieve their distress, and will America allow distance to stifle the cry of famine, in her ears. We know its extent, and as Christians let us show ourselves prompt to recognize the claim of common humanity, to a hungry, naked and houseless people.

"It is considered important that this collection should be simultaneous in all churches, and on the second Sunday in March, so that all can be engaged in one good work. The common prayer for mercy, from the famine stricken, will go up to God, and a common feeling of sympathy will unite all churches We appeal to pastors of churches to make their request from the merchants of New York to effectually show their zeal as Christians.

"Contributions can be forwarded to Charles Larrier, No. 27 Pierce street, New York.

"Signed—Charles H. Marshall, Chairman New York Committee; Charles Larrier, Secretary and Treasurer; Anson Phelps Stokes, Secretary Chamber of Commerce; H. W. Bellows, D. D."

PORTLAND, Feb. 22—The following report reached here by the steamer Ajax, from San Francisco, which arrived last evening:

WASHINGTON, Feb. 15—For the first time since that memorable spring of 1861, when the Senators from the south abandoned their seats to take part in the rebellion, the Senate of the United States contains representatives from every State in the Union.

MEMPHIS, Feb. 17—The *Avalanche's* Little Rock special says: Articles of impeachment were o ay presented in the House against Governor Clayton, and adopted. There is intense excitement Clayton had a lot of arms removed from the arsenal to the west end of the capital, last night, and is said to be sweeping everybody he can get as militia men.

WASHINGTON, Feb. 16—The Alabama claims are held by lukewarm people to amount to $8,000,000, and by others to $13,000,000. There were 23 ships in all destroyed by the Alabama.

BOSTON, Feb. 17—The committee having the funds in charge for the suffering French began loading the U S. steamer Worcester to-day, at the navy yard Up to last night, a little over $71,000 had been raised for the purpose, from all classes of the community, in sums ranging from $1 to $1,000. The storage and carrying capacity of the Worcester is estimated at 10,000 barrels. These will be filled with provisions, the principal portion of which will be flour; also some beef, pork and preserved meats.

WASHINGTON, Feb. 17—The Senate Pacific Railroad Bill Committee, at a meeting to-day, discussed the question of the interest due on the bonds of the Pacific Railroad Company, but came to no conclusion. The matter has been postponed for a week, in order to allow the Judiciary Committee to make a report on the subject now before the Committee.

WASHINGTON, Feb. 17—In the Senate, the Legislative Appropriation Bill was proceeded with, the question being upon the amendment to increase the salaries of U. S. District Judges. The proposed increase was retained in the Bill

The Secretary of War is now in receipt of a letter from the commanding officer at Fort Dodge, Kansas, stating that a general outbreak of hostilities on the part of the Cheyennes and Arraphoes, is expected in the spring, and the points of attack will be the frontier settlements of Kansas.

The presence of the Alabama Commission will make Washington city lively, far into the summer, for probably a tremendous international lobby will assemble over these claims, accompanied with flocks of lawyers as thick as black birds.

NEW YORK, Feb. 17—A dispatch from Washington, says: that the Secretary of the Treasury expresses great confidence in the full success of the loans, and is in receipt of assurances from many financial sources, to the same effect. It is thought, that should the favorable prospects continue, in less than a month all classes of the United States securities will have reached an enhanced value.

The *World's* financial article, this morning, says that the appointment by the United States and England of the High Commission to settle the Alabama claims, and other questions at issue between the two countries, has the effect of giving an improved tone of confidence in financial circles, and that the abundance of loanable Bonds, and the prospect of Boutwell receiving subscribers to the new loan, and carrying out the programme of funding the five-twenties has given a powerful stimulus to the investment in Government and other first class securities. The impression is gaining ground, that affairs are improving both here and in Europe, and capitalists are more disposed to invest.

WASHINGTON, Feb. 15—The House Committee for claims, have 842 cases upon their docket, about 120 of which have been acted upon favorably, and 308 unfavorably, and the remainder have not been reached.

EUROPE.

PARIS, Feb. 17—Many diplomats have returned.

Fritz is opposed to the entry of the Prussians into Paris.

Some journals say that if the Assembly consents to the dismemberment of France, the Parisian delegates will protest and withdraw.

BORDEAUX, Feb. 18—Immediately after the vote in the Assembly, yesterday, the English, American, and Italian Ambassadors visited Thiers and officially recognized the French Government.

LONDON, Feb. 18—In the House of Commons, last night, the prevailing tone was that England is weak, and through her hesitancy had lost the respect of the belligerents and invited early war at her own expense. Gladstone recapitulated the negotiations. He believed that magnanimity on the part of the Germans would benefit not only France and Europe, but Germany itself. It was certain that neither belligerent now wanted intervention.

MADRID, Feb. 16—The Spanish elections are to be held on the 8th of March, and the Cortes will meet on the 3d of April.

A correspondent says the elections for Deputies to the Cortes will shortly be held in Porto Rico and Cuba.

Australia.

[Dates to Jan. 1st.]

VICTORIA.

Parliament has been prorogued prior to the general elections. Payment of members has now become the law of the land. Each representative will receive $1,500 per annum.

Two contests between representatives of the Universities of Sydney and Melbourne took place last week. The first, a four-oared gig race, was won by Melbourne, with several lengths to spare. They also won the cricket match, with two wickets to fall.

The French iron-clad Belligneuse sailed from Melbourne for New Caledonia and has since arrived at her destination.

The railway strike has terminated. Several of the ringleaders were arrested and sentenced to various terms of imprisonment. Those who were most prominent received six months each.

Mr. M. Frazer, member of the Legislative Assembly from Creswick, died at Melbourne on the 13th.

Dyer who confessed in London that he had murdered his mate at the Lodding diggings in 1857, has arrived from England, in custody. The case is still under investigation.

NEW SOUTH WALES.

Massive booms for the protection of Sydney harbour are now in course of construction. Torpedoes are being manufactured, and earthwork batteries will be commenced immediately, so that if the Russian bear should leave his stronghold on the Amoor, with the intention of putting his paw on Australia, the reception will be warm and compliments mutual, particularly so on the part of our Victoria neighbors, who, in addition to their war steamers Nelson, Victoria, and Pharos, will shortly be able to boast of the iron-clad monitor Cerberus, now *en route* to Australia *via* the Suez Canal.

SOUTH AUSTRALIA.

Over one hundred miles of the overland telegraph line is finished. Six hundred miles of the line will be completed by the end of July.

The low price of copper in England has caused several mines to suspend operations.

Pemell's steam flouring mills, Sydney, were destroyed by fire on the morning of the 1st inst.; loss $50,000. Exactly a week later, Foy's hardware store was burned down; loss $25,000.

The gold yield of the Colony, during the past eleven months, aggregate 160,080 ounces, against 199,141 ounces for the same portion of 1869.

Several wrecks have occurred recently The brig Deva, 264 tons register, from New Caledonia for Newcastle, was lost near Macquire on the morning of the 5th. The barque Rialto was totally wrecked entering Newcastle, during a heavy gale on Monday last. On the same day, the brig Sarah, 250 tons, laden with maize, for Melbourne, went to pieces on the rocks at Crescent Bay, and the schooner Missic was lost at Sydney Heads, yesterday. All the crews were saved. It is feared that other disasters have occurred during the late heavy gales, as wreckage of a large vessel has been seen on the coast. News was received last night, that the schooner Uncle Tom was lost at the Clarence River, and a cabin passenger named Nichole was drowned. The Maid of Tiverton went ashore at Jarvis Bay and bilged.

New Zealand.

AUCKLAND, Jan. 7—His Royal Highness the Duke of Edinburgh, in command of the Galatea, has been spending some weeks in Auckland. The Prince arrived here on December 8th, and is expected to leave on the 14th inst. for home, by way of the Falkland Islands. During his stay he has visited, in company with Governor Bowen, the wonderful hot springs in the centre of the northern island; and has received numerous addresses from friendly Maoris. He has played "first fiddle" at some of our late concerts, patronized bazaars and other amusements, and contested in a pigeon shooting match with our Hamley Gun Club—his team winning. The Duke made the second highest score. Altogether, during his visit here, he has done much to ingratiate himself in the highest esteem of the people of this colony.

We have also in harbor here at the present time, H. M. S. Clio, Commodore Stirling, and H. M. S. Virago, Captain Dandy. At the end of this month, Commodore Stirling will visit, with the Governor, the Southern Provinces—particularly Otago. H. M. S. Blanche left here on the 11th for Hobartown

The Earl of Pembroke, having been wrecked at Starouck Island, has returned to Auckland by way of the Figis. His yacht, the Albatross, became a complete wreck, and the Earl, his medical adviser, Dr. Kingsley, and his attendants, lost all their clothing. Dr. Kingsley had made a large collection of objects of natural history during his stay in these waters, but which, unfortunately, were all destroyed.

The Parliament of New Zealand has been dissolved, and new writs are to be issued immediately. The elections are expected to be over in three weeks.

The census of this colony is to be taken in February.

The introduction of the permissive principle into the Licensing Bill now before the Provincial Council, is creating some attention among publicans and teetotallers. As a rule, the people seem favorably disposed to the principle, if we may judge from the vote taken in one ward (West), where an immense majority was shown in its favor.

The telegraph line has been extended as far as Tamanga from the south. The intervening space will be covered, it is believed, in about three months.

One or two fatal cases of cholera have been reported as occurring during the past month, in Auckland.

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skill of three first-class American physicians. Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot commend the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief.
